Forged DENM								7/7
Rogue RSU broadcast								7/7
Camera feed injection								7/7
RF jamming of PC5 links								7/7
RF jamming of 5G links								7/7
Adversarial examples vs. perception models								7/7
MitM on cloud MLLM link								7/7
Privacy leakage of camera imagery								7/7
Signing-key theft (HSM, PKI)								7/7
Credential theft (HSM, PKI)								7/7
PKI (CA) compromise								7/7
Rogue certificates								7/7
Camera blinding								7/7
Physical camera sabotage								7/7
In-vehicle warning-logic tampering								7/7
Camera feed replay								6/7
In-vehicle verification tampering								5/7
Cloud MLLM endpoint spoofing								6/7
Prompt injection vs. MLLM agents								6/7
Cloud API quota exhaustion								6/7
Cloud API outage								6/7
Missing audit trail for AI decisions								6/7
Privilege pivot into vehicle networks								6/7
ASN.1 DENM parser exploitation								6/7
AI model weight tampering								5/7
API credential (key) compromise								5/7
Driver alert flooding								5/7
Driver alert fatigue								5/7
DENM replay								4/7
GNSS spoofing								2/7
GNSS jamming								1/7
Sybil attack (multiple forged identities)								2/7
Signal overshadowing on PC5								2/7
Unsigned software update (supply chain)								1/7
Camera re-aiming shifts reported location								2/7
